How to make cappuccino grass jelly

First we prepare

- 1 block of grass jelly then cut into small boxes, then pop ice sachets
- 2 add the grass jelly, cut the grass jelly into squares / cubes. or maybe according to your taste.
- 3 prepare a blender. Then pour sugar into water, pop ice cappuccino powder, cold water (ice), and shaved ice. Then blend until all ingredients are smooth and well blended.
- 4 Prepare a serving glass/bowl. Fill it first with jelly, then pour the cappuccino and ice cappuccino into the glass and add some toppings according to taste.
- 5 Finally the jelly jelly cappuccino is ready to be served.
